PROFESSIONAL SUMMARY

Experienced Software Developer with over 2 years of hands-on expertise in developing robust and scalable software solutions. Adept at collaborating within interdisciplinary teams to deliver high-quality products, consistently meeting project objectives and deadlines.

EXPERIENCE

Software Developer   **2024 – Present**

InterScripts Software Pvt Ltd

- Working on Bytepad web application, leveraging ReactJS, MUI, TypeScript, Node.js, and MySQL for dynamic functionality.
- Developed growth chart feature enhancing application usability and data visualization.
- Overhauled application design using MUI minimal template for a modern and streamlined user experience.
- Successfully completed Radiology Information System module, contributing to project milestones and functionality enhancements.

Junior Software Developer   **2021 – 2024**

Fission Infotech Pvt Ltd

- Developed a shadow properties app for Android and IOS using React Native and Native Base, with deployment through Expo for a seamless cross-platform experience.
- Created a responsive web application using ReactJS and deployed it using Git for version control.
- Designed and implemented UI for both mobile and web apps, integrating APIs and ensuring efficient data management through Redux and React Hooks.
- Implemented Expo push notifications for Android and IOS, and added reminders feature using Socket.io for the web.
- Added calls and messages feature for both mobile and web platforms.
- Introduced buyer contacts features to simplify buyer management, including a customizable landing page.
- Managed payments using Stripe for both mobile and web platforms.
- Developed a responsive personal project for the portfolio using Next.js, HTML, CSS, and React, showcasing front-end development skills.
